Text: Linear Algebra with Applications
by Stephen J. Leon, Sixth Edition

1. **Grading.** Your course grade will be based on homework and three in-class tests:

First Test:	25%
Second Test:	25%
Third Test:	25%
Homework:	25%

2. **Homework.** Homework will be assigned about once a week. Late homework will not be accepted, but your lowest homework score will be dropped in calculating your grade.

You are encouraged to talk with each other and the instructor about the homework, but you must write up the solutions yourself, using your own words.

3. **Reading.** There will be assigned reading. Please do it.
4. **Tests.** Books, notes and calculators cannot be used on these tests. Students must plan to take the tests at their scheduled times.

The tentative dates and times for the tests are:

Wednesday, October 8th, 2:30–3:20 PM
Friday, November 14th, 2:30–3:20 PM
Friday, December 12th, 2:30–3:20 PM

We may consider replacing the third test with a cumulative final exam. This would be held in this section's scheduled exam time slot, 8 AM on Saturday, December 20th.
